Sheboygan Chevrolet and Sheboygan Chrysler Center donated a van for use to Fresh Meals on Wheels of Sheboygan County (FMOW) during this increased time of need. Our FMOW is experiencing challenges on a daily basis to provide healthy foods made and packaged by fewer individuals, under even stricter sanitation guidelines, and lost revenue as a result of economic hardships. Because of the need for social distancing there have been many changes to the processes for sanitation, preparation, and delivery of meals. If you are able and willing to assist in helping this organization with financial assistance or volunteering for delivery please reach out to them either through their website or via phone.
